Attachments: R3-1 Blades DE HQ FINAL_GP Comments_3-26-21.sp.docx

Hi.

I tightened space and added an acronym to ensure that the paper makes the one-page limit with 1-in margins. I also made some other edits that I didn't expect to, so I'm sorry to say that I didn't have track changes. I can run a compare if needed.

I had some questions in the last sub, sub bullet.

Subject: Blades Site - RE: FY 2022 Appropriations Hearings – Call for New or Updated Fact Sheets

Hi All-

I've attached a revised draft of the fact sheet for the Blades Site. Dan did a great job drafting this yesterday.

- I've incorporated just a few revisions in addition to my revisions that Dan already incorporated yesterday. The new revisions are redlined.

- **Charlie** – I revised the draft that Dan and I worked on yesterday, so I don't know if the attached draft includes the edits you added today.

- I deleted Dan's and my comments in the margin, except for a couple that I left in because I thought subsequent reviewers might have the same question. Those remaining comments in the margin can be deleted.

- I incorporated the bullet from Katie Page (and revised it slightly) under "Key Points". If you think it should be under the "Talking Point" heading, please feel free to move it, and make the "Talking Point" heading plural.

- Dan indicated that he left the previous fact sheet at the top of the draft for reference, but I assume that part can be deleted once the new fact sheet is finalized. I left it there so subsequent reviewers can also reference it for background. Once it's removed, if the fact sheet is over one page, one option is to change the margins to .75".

If you need to reach me quickly this afternoon, the best way is to call my cell Ex. 6 Personal Privacy (PP) I'll be listening to an online CLE course from 2:00 to 4:00 pm, but it's okay to call during that time. I won't be staying logged on for very long after 4:00, but I'll check my email around 4:00 once the course is over in case anything needs attention. I'll be working on Monday.

Thanks,
-Gwen

Hi Will,

Alex and I are tag-teaming Blades together, so I cc-ed him as well. Here is a bullet of some of the CIC efforts at the site so far:

- CICs posted two "In the Moment" videos to the Site Profile Page in early March about current work at the site and the upcoming Community Involvement Plan, and they are also planning to film another featuring the RPM to encourage residents with domestic wells to participate in upcoming sampling activities.

Let me know if that works!

Best,

Katie Page

Hey, Katie, can you give us a bullet about CI efforts at Blades, per Charlie's email below? Dan is off today, otherwise I'd be bothering him. Thanks!

You can put it right in an email and I'll add it if that's easier.

-Will

Hey Will – I added a few minor edits, but I suggest that some mention of our community involvement efforts be added. Who is the CIC for the Site? Maybe they can add something as to what we've been doing and plan to do community outreach wise. One bullet should work

Good afternoon,

It's FY22 budget hearing prep time! In the attached table of contents, HQ has identified updates to fact sheets that apply to **SEMD, CBPO, and WD**:

Region 3 Issues

Blades Groundwater Site, DE.....	R3-1
Nonresponsive based on revised scope.....	R3-2
Nonresponsive based on revised scope.....	R3-3
Nonresponsive based on revised scope.....	OW-13

I believe all of these fact sheets need to be updated and are not new. These topics are the most apparent R3 leads from the table of contents, but there may be other asks that come to the region. Once these have gone through review in the respective division(s) and MSD, please send to me and Mark Ferrell. We will review and send to Diana and Paul L for final review.

HQ did not include their final versions of the fact sheets from the last iteration. I'm tracking those down now; however, they may come from your respective NPMs.

Thanks in advance for your help in updating these fact sheets.
